REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, the limitations of: removing the insulating material in the core opening using the core mask; depositing a doped bitline material over the core opening and the isolation opening; planarizing the doped bitline material; and thermal annealing the doped bitline material to form a high conductivity bitline, as required by independent claim 1. Furthermore, the prior art also fails to suggest: removing the insulating material in the core trench using the core mask; depositing a doped bitline material over or in the core trench and the STI trench; planarizing the doped bitline material and the insulating material; and thermal annealing the doped bitline material to form a high conductivity bitline, as required by independent claims 8 and 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard A. Booth whose telephone number is (571) 272-1668. The examiner can normally be reached on Monday-Thursday from 7:30-6:00.
